ROGAN KITCHEN MFG. WARRANTY

Congratulations! You are the proud owner of a quality kitchen manufactured at Rogan Kitchen Mfg. We take pride in the construction of all cabinets and countertops. However, if you have a problem please call us. The warranty periods are listed below:

Thermoplastic Doors and Drawer Fronts – Warranted for a period of 10 years from date of installation from discolouration and delaminating.

Wood Doors and Drawer Fronts – Warranted for a period of 5 years from date of installation from warping, cracking and separation under normal conditions. Rogan Kitchens shall not be responsible for irregularities in the veining or graining of natural wood, which differ from tree to tree, or for slight differences in the wood colour in relation to the delivered product and the sample shown to the buyer. Although we provide you with the best product possible we can not always guarantee that each wood product will represent a 100% colour match due to these circumstances.

Painted or Tinted Kitchens – Due to the nature of the natural wood and paint we will not be responsible for any cracking or discolouration that may occur. In the climate we live you may experience expansion and contraction of wood doors that would result in the drying and cracking of a painted product. Exposure to UV rays may cause the discolouration of a painted product from one area to another.

Counter Tops – Limited Warranty-for a period of 1 year from day of installation, free of defects in materials and workmanship. The counter top is not covered from abuse and improper cleaning procedures or excess water left on the surface of the top. Also not covered under the warranty is any lifting of the laminate due to a sink being within 12” or less from a mitre, a finished end or an end splash.

Hardware – All “Blum” hardware used in the construction of the cabinet has a Lifetime warranty.
